Worked Projects

- **Isha Sacred Walks** – https://isha.sadhguru.org/sacred-walks – 1month

  Developed a high-performance website for Isha Sacred Walks using Next.js to ensure fast loading speeds and smooth functionality, particularly during the registration process, to prevent any downtime and enhance user experience.

  ### Responsibilities

  1. Convert PSD to Next js Responsive Conversion and Web page creation (UX).
  2. Perform end-to-end testing for websites and user interfaces to ensure optimal functionality, including coding reviews and debugging efforts.
  3. Ensure to reduce the loading speed of website to meet the requirement

- **Timecheck Landing Page** – https://www.timechecksoftware.com/lp/time-attendance-management-software-solutions/ – 1month

  Built a React.js website for Time Check, highlighting their products, product features, and benefits for attendance management. The site effectively showcases the company's solutions, emphasizing key features like real-time tracking, automated reports, and seamless integration with existing systems.

  ### Responsibilities

  1. Mainly build on focus to increase the goals for the website
  2. Convert PSD to React js Responsive Conversion and Web page creation (UX).
  3. Perform end-to-end testing for websites and user interfaces to ensure optimal functionality, including coding reviews and debugging efforts.

- **Nature Resorts** – https://natureresorts.in/– 2month

  Nature Resorts is a company that manages and owns various resorts and hotels. We created a comprehensive website for Nature Resorts, featuring a collection of premium resorts in Ooty, Coonoor, and other locations. The website is designed and developed with user-friendly interfaces to highlight resort amenities, accommodation options, and local attractions.

  ### Responsibilities

  1. Redesigned the webpage to enhance accessibility and provide a seamless experience for customers.
  2. Convert PSD to Wordpress Responsive Conversion and Web page creation (UX).
  3. Primarily focus on simple usability for a multi-page website to ensure easy access.

- **Sri Ranganathar Industries Pvt.Ltd** – https://www.sriindia.net/– 1month

  Developed a comprehensive website for Sri Ranganathar Industries Pvt. Ltd., a manufacturing company. The website showcases the company's history, capabilities, and the various companies under its umbrella. It also features detailed sections on their wide range of products and company policies.

  ### Responsibilities

  1. Convert PSD to HTML Responsive Conversion and Web page creation (UX).
  2. Perform end-to-end testing for websites and user interfaces to ensure optimal functionality, including coding reviews and debugging efforts.
